

Philosophy

Karri Kids Child Care aims to provide a caring and supportive environment and establish a sense of belonging, for all who use our service.

Everyone will be helped to feel comfortable, unique, valued and important.

Positive self-concepts will be fostered through acceptance and respect for individuals.

All aspects of children's growth will be nurtured and planned for, to encourage physical, social/emotional, cognitive and language development.

We believe children learn through hands on play-based activity.

Developing a program based on children's own interests and strengths, encourages meaningful and engaging learning experiences.

Communication and social skills will be continually modelled and encouraged.

Activities and routines will assist in developing independence and self confidence.

Both group and individual experiences will be offered.

The environment will be changed regularly to stimulate and challenge the children.

OUR GOALS

- To create a secure, caring and happy environment.
- To cater to children's individual needs to allow them to grow and develop at their own pace.
- To respect the rights of all individuals at the service and offer inclusion for all.
- To maintain the highest standards of supervision, safety and hygiene.
- To provide and maintain suitable, clean premises and equipment for children.
- To keep fees to a minimum so all families can have access to the service.
